# WHAT IS FRAGRANCE

---

Fragrance (essence, scent or flavor) is a raw material which provides the nice and pleasant smell in our products.

Most commonly, they are made out of natural resources. The particles which give the unique smell of our products can be mixed in any of our products in our labs.

We have a library of over 100 different fragrance options which consists of natural essences and well known perfumes

---

# PERSONAL CARE PRODUCTS

---

## Liquid Hand Soap (DEL'LA SOFT )

- Suitable to skin pH and includes skin caring additives.
- Easy to use, economic and hygienic with its liquid form.
- Pleasant and unique smelling.
- The active ingredients are bio-degradable.
- Our most common fragrances are red roses, lavender, coconut and ocean smells; however we can manufacture in desired scent & color.

## Liquid Hand Soap (DEL'LA SOFT )

- In addition to our Eco Line's features, it included Vitamin E which slows skin aging.

Vitamin E is a well-known powerful antioxidant with great anti-aging properties; it is an excellent free radical scavenger, vital in protecting skin cells from pollution, UV light and elements that produce cell damaging free radicals.

- We offer Romantic Touch, Sunshine, Tropical, Lilium Night, Magic Sunset, Aquarium fragrances with Pro Line.

## Foam Hand Soap (DEL'LA SOFT )

- This is the foam version of our Pro Line.
- Helps you save water: With foam, people use 16 percent less water per wash versus those using liquid soap. Similarly, water usage can be reduced by up to 45 percent when hands are not wet prior to lathering, as the foam soap allows for lather without additional water.

# KITCHEN CLEANING PRODUCTS

---

## **Stain Remover Pre-Soak Solution**

Helps get rid of coffee, tea, starch stains from dishes by using as soaking fluid before the dishwasher cycle. Suitable for porcelain, glass, stainless steel and plastic dishes. Can be manufactured in desired color & fragrance.

## **Porcelain Scratch Remover**

In time, porcelain is scratched by utensils. The active surface materials in this product is a great tool to get rid of scratches with a short soaking. It's also bio-degradable.

## **Oven and Burn Oil Cleaner**

Helps get rid of accumulated burnt oil and grime from oven, hobs, fryers and grills. Thanks to its thick formula, also suitable for vertical applications: doesn't flow easily. With solvents and strong alkalis, it's fast and easy solution to the oil problem.

It's not suitable for usage on aluminum.

## **Dirt and Oil Remover**

Great to clean the grime and oil on kitchen floors, hoods and walls. Can be used on hand and as well as with machines. Biodegradable thanks to the active ingredients.

## **Stainless Steel Polish**

Used for polishing to leave a great shine on every metal, in particular with stainless steel. Creates a sacrificial layer after each use in order to prevent tarnishing and sticking of dirt to the surface. Can be daily used.

## **Drain Opener**

Can be used in all industrial drains where there's an accumulation of grime and oil/fat deposits.

## **Vegetable and Fruit Disinfectant**

Cleans raw vegetables and fruits safely. Formed with metabolically compossible ingredients. Great against bacteria found in dirty waters. Dissolves easily in cold water and helps you store fresh foods for a longer time.

## **QAC Based Surface Disinfectant**

Used for disinfecting kitchen floors, walls, surfaces and equipment after regular cleaning. Disinfects with Quaternary Ammonium Compounds (QAC). Effective against bacteria, fungus, and molds. Does not corrode metal, does not irritate skin.

# GENERAL CLEANING PRODUCTS

---

## **Carpet Shampoo for Machines**

Suitable for cleaning carpets and sofa surfaces with wet type sofa cleaning machines.

Foam density can be controlled easily.

After dusting the surface, can be used dry with suitable vacuuming machine.

Biodegradable thanks to the active ingredients.

Thanks to neutralized PH level, can be used on delicate fibers.

## **WC – Toilet Cleaner**

Disinfects, removes grime, dirt and lime accumulation.

Kills all germs and bacteria.

## **Bath Cleaner**

Used for descaling on corrosion resistant surfaces.

Great for removing soap scum and grime from durable bath surfaces including faucets.

Biodegradable thanks to the active ingredients.

Prior to usage, should be tested on small part of marbles and other calcium carbonate based surfaces.

## **Dirt and Stain Remover**

Used for removing stains of alcoholic beverages, fruit juices and other water soluble beverages such as coffee, tea.

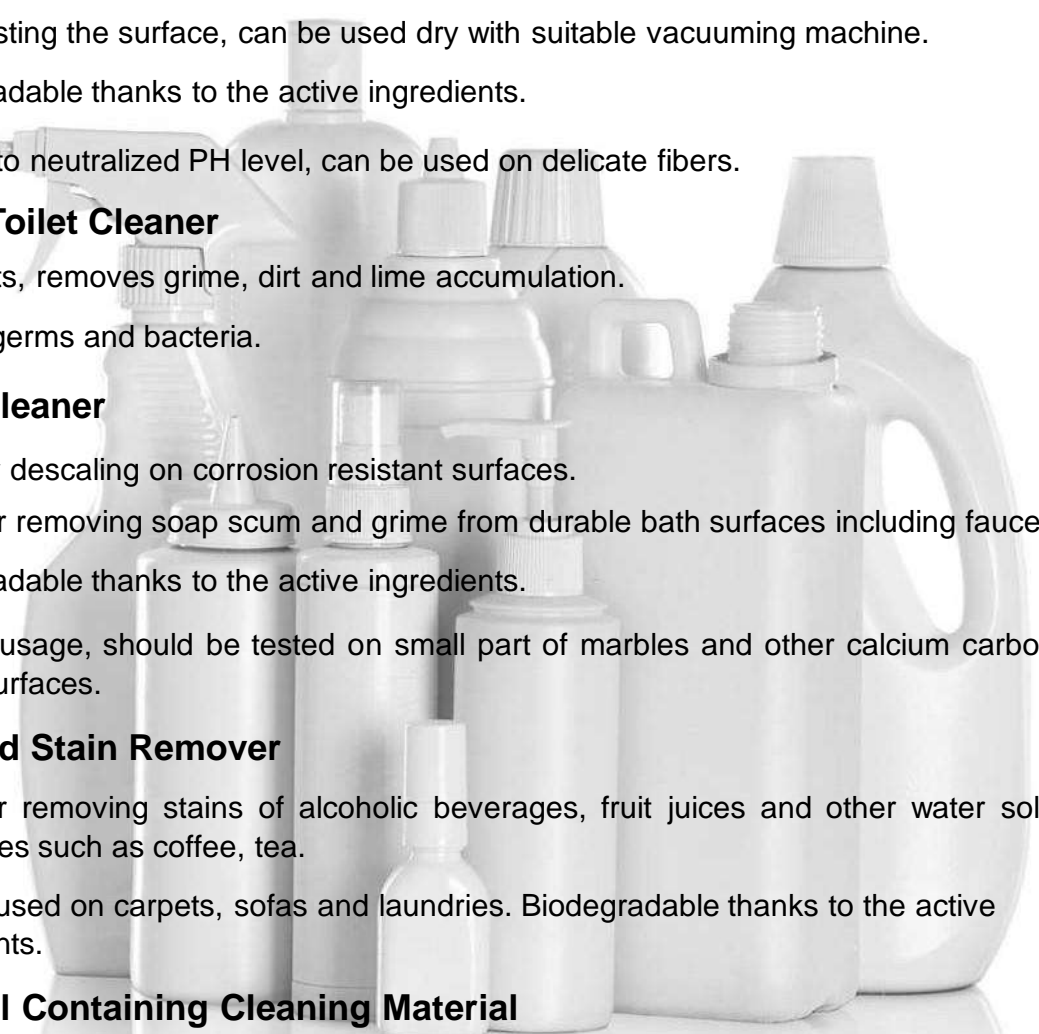

Can be used on carpets, sofas and laundries. Biodegradable thanks to the active ingredients.

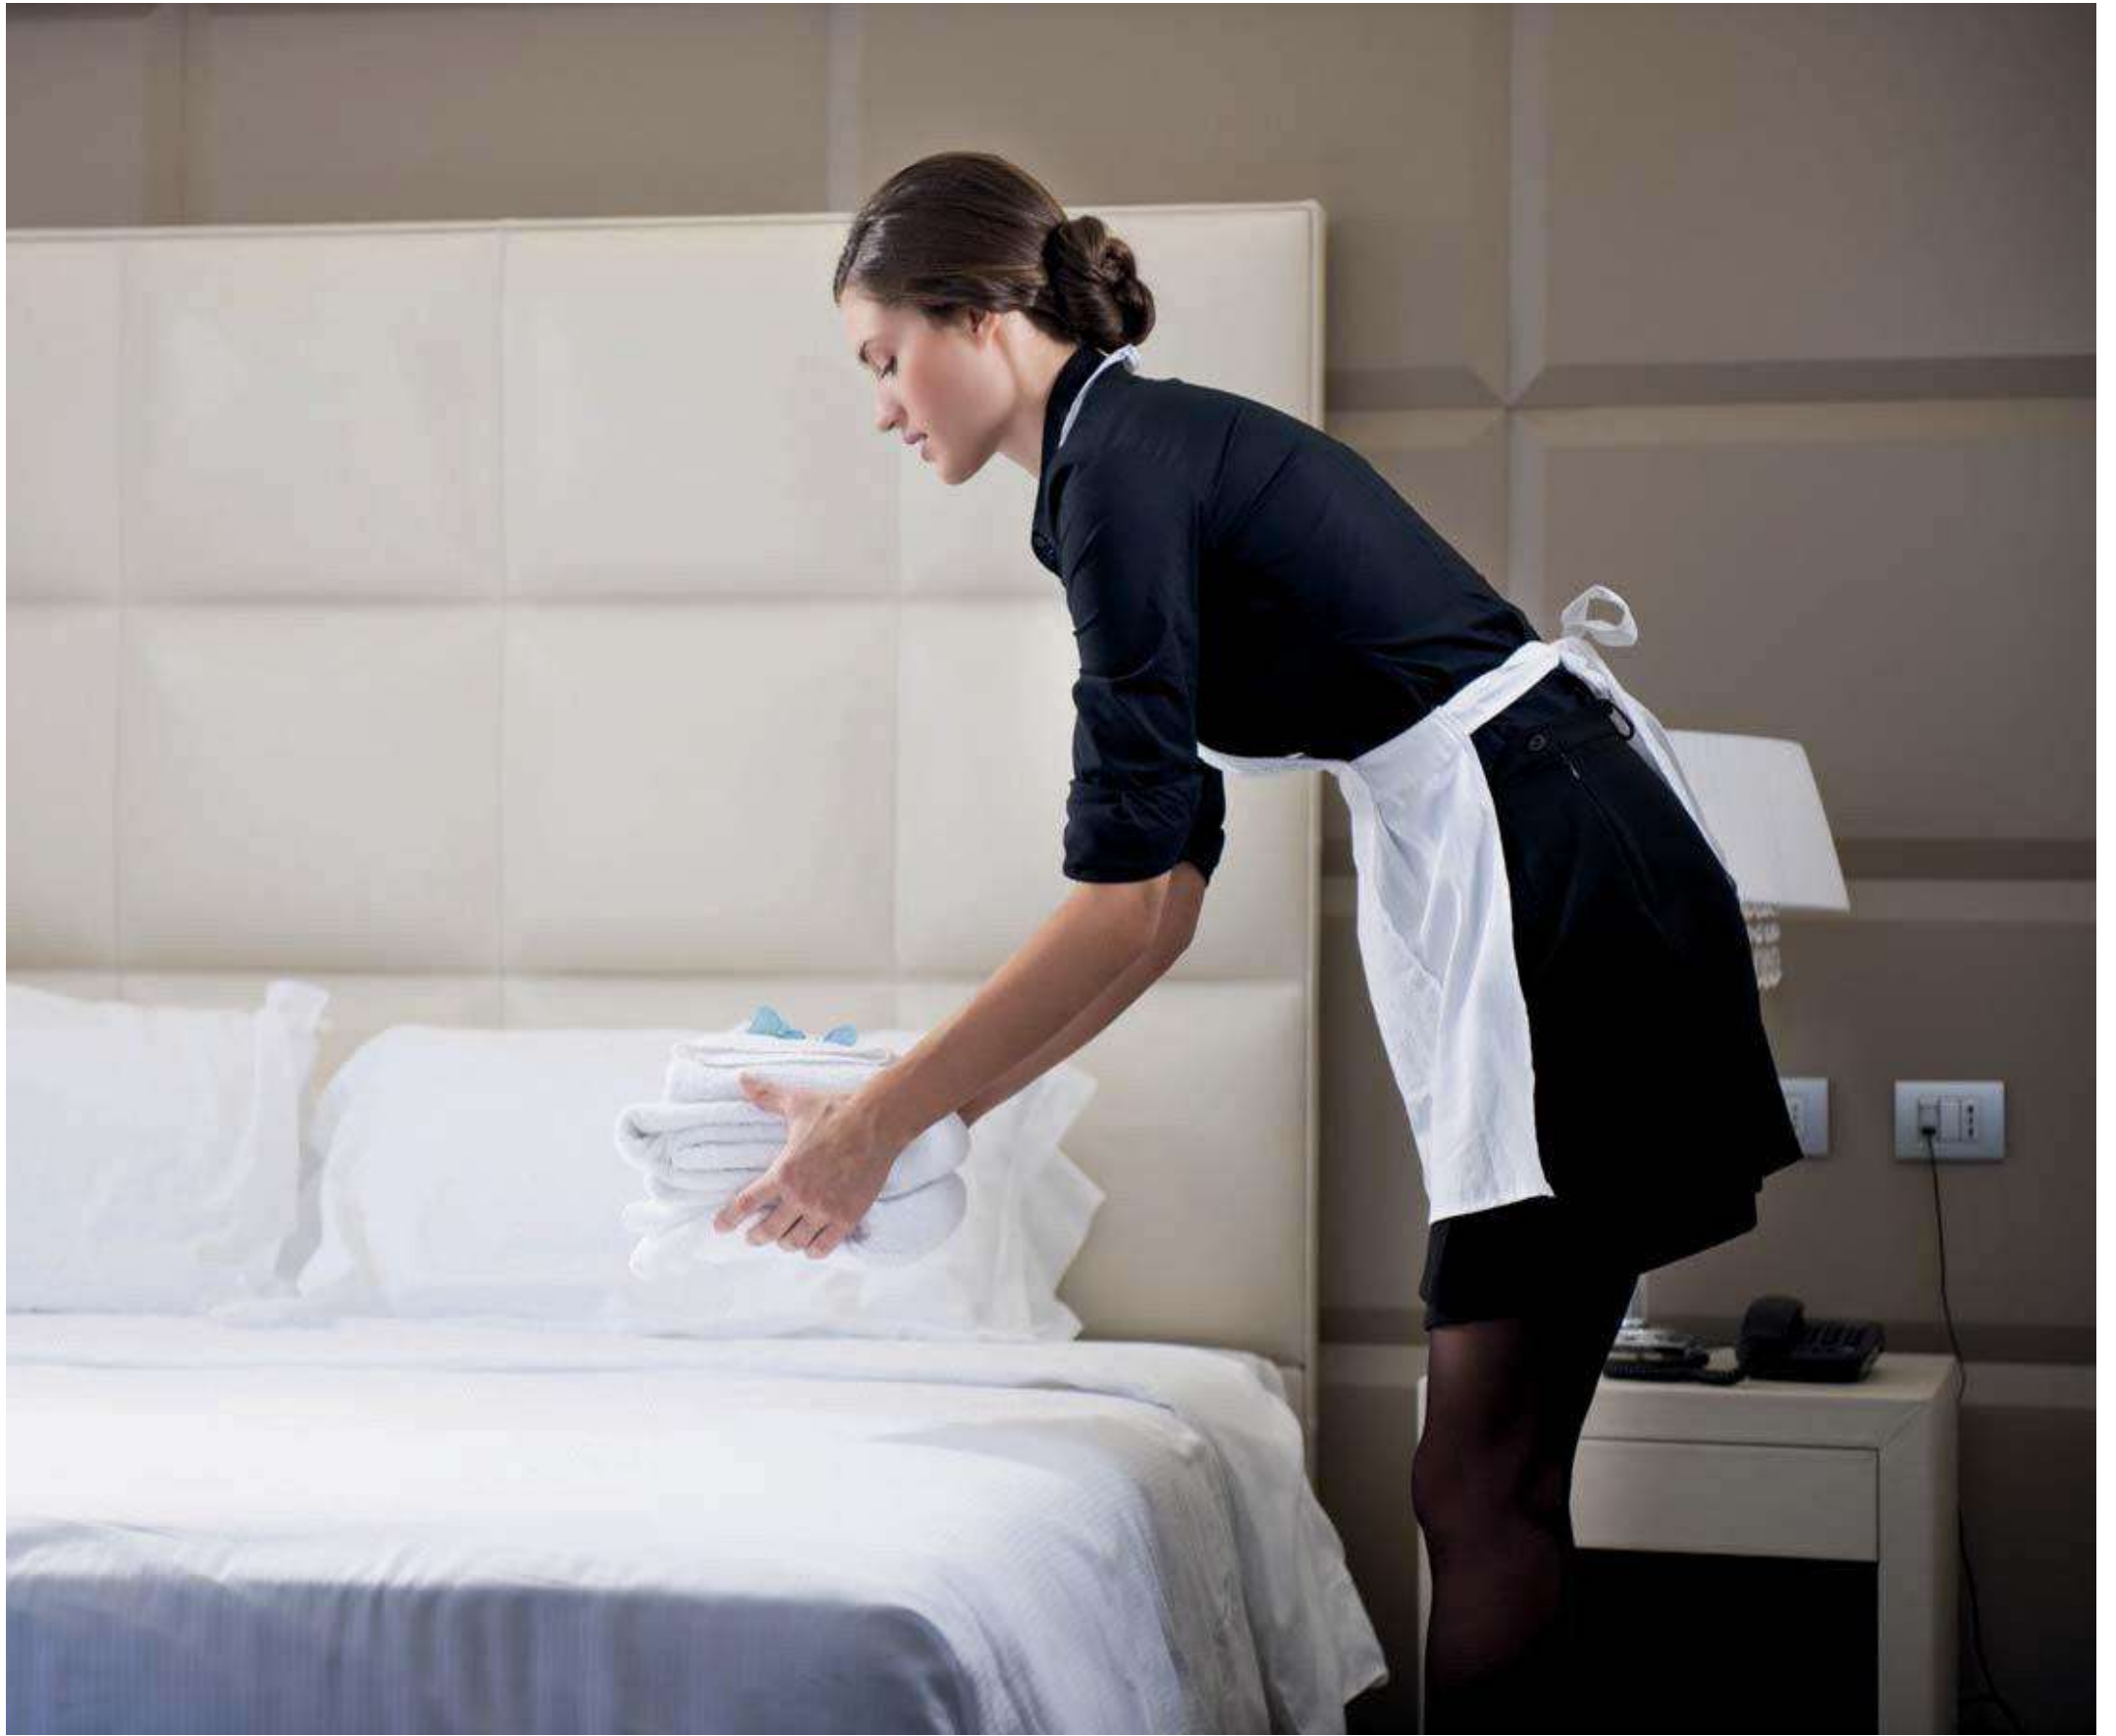

## **Mineral Containing Cleaning Material**

Works on sinks, tiles, bath surfaces, kitchen appliances, aluminum, chrome and other hard surfaces: cleans and shines without any scratches.

With the help of minerals and active ingredients, takes away hardened dirt.

Leaves a great scent behind and takes away bad odor.
